Overview of Political and Legislative Landscape

Presidential Election

- Trump: 306 votes
- Clinton: 232 votes

House Elections - GOP Retains Control

- Republicans: 241 seats
- Democrats: 194 seats

Senate Elections - GOP Retains Control

- Republicans: 52 seats
- Democrats: 48 seats

Key House Leadership
- Speaker of the House: Paul Ryan (R-WI)

Key Senate Leadership
- Republicans: John Cornyn (R-TX)
- Democrats: Chuck Schumer (D-NY)

Key Players

Financial Services

House Financial Services Committee

Rep. Maxine Waters  
(D-CA)  
Ranking

Rep. Jeb Hensarling

President Trump’s Key Policies

- **Imigration Reform**
- **Trade**
  - TPP, NAFTA, T-TIP
- **Environmental**
  - Climate change policy review and other EPA regulations
- **Customs Enforcement**
  - Including, building “the wall”
- **Infrastructure**
  - $137 billion in tax credits to leverage $1 trillion private investment and infrastructure
- **Financial Services Reform**
- **Healthcare**
  - Repeal the Affordable Care Act
- **Tax Reform**
- **Government Budget Fight**
- **Overall Regulatory Reform**
  - “No new regulations until the economy shows significant growth”
Trump’s Key Conceptual Framework

- Jobs: Create new jobs, or bring them back onshore.
- Save money for working-class families
- Create opportunities for economic advancement
- Reduce government regulation and the costs of doing business

Instead of driving jobs and wealth away, America will become the World’s Great Magnet for Innovation and Job Creation.

- Donald J. Trump
Key Policy Issue:

Financial Services
On Dodd-Frank:
“We have to get rid of Dodd-Frank. The banks aren’t loaning money to people that need it… The regulators are running the banks.”

On Too Big to Fail:
• Does not support “breaking up” big banks
• Glass-Steagall?

Regulatory Reform
• No new regulations until economy shows “significant growth”

Bottom Line
• The Administration will be looking to the House Financial Services Committee and the Senate Banking Committee
Focus on pro-growth policies
Nominations: Treasury; Fed Governors; SEC
Dodd-Frank Reform
JOBS Act
GSE Reform
“FinTech”
DOL Fiduciary Duty Reform / Repeal
CFPB Reform
Federal Reserve Reform
Cybersecurity
Sanctions / AML – Iran

SENATE: Federal Regulatory Improvement Act (S. 1484)

HOUSE: Financial CHOICE (H.R. 5983)

Consensus Views and Commonalities:
- “Too Big to Fail” / SIFI / FSOC Changes
- Community Bank Relief: Streamline exams, Mortgage rules
- Federal Reserve transparency
- Capital Formation for emerging businesses and other JOBS Act
**The Financial CHOICE Act**

| Repeal of investor protections in Dodd-Frank | Eliminates authority for SEC to establish a uniform standard of care for broker-dealers and investment advisers.  
Removes ability of SEC to restrict or prohibit pre-dispute arbitration. |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Exemption of PE Fund Advisers from reporting</td>
<td>Advisers to private equity funds are exempt from registration requirements under the Investment Advisers Act.</td>
</tr>
</tbody>
</table>
| Credit Rating Agencies Reforms | SEC Office of Credit Ratings and Office of Municipal Securities would now report to the Division of Trading and Markets.  
Repeal of the Franken Amendment of Dodd Frank Section 939F that would require a government appointed board to assign ratings to nationally recognized statistical rating organizations (NRSROs).  
Reinstates the SEC rule that allows issuers to include security ratings from a credit rating agency in a prospectus without the consent of the credit rating agency.  
SEC may exempt any person from certain registration provisions if those provisions create a barrier to entry into the market for NRSROs. |
| Proxy issues | Repeals SEC authority to issue proxy access rules.  
Repeals SEC proxy disclosure rules regarding Chairman and CEOs of issuers.  
Require the registration of proxy advisory firms and management of conflicts of interest as well as methodologies for providing recommendations. |
| Conflict Minerals | Repeal conflict mineral, resource extraction and mine safety disclosure requirements. |
| International negotiations | Before participating in any process of settling financial standards through an international process (BCBS, FSB or IAIS), the Federal Reserve, FDIC, OCC, Treasury, SEC ad CFTC would be required to first consult with Congress. |
The Financial CHOICE Act

Key Policy Issue:
Trade
Trade Considerations

Moving away from multilateral trade agreements…
…and moving toward bilateral agreements.

- Creation of the National Trade Council in the White House:
  - “develop trade policies that shrink our trade deficit, expand our growth, and help stop the exodus of jobs from our shores”
  - “advise the President on innovative strategies in trade negotiations, coordinate with other agencies to assess U.S. manufacturing capabilities and the defense industrial base…”

- Considerations:
  - Off-shore production: Tweet-style headline risk, sensitive to outsourcing manufacturing jobs
  - Export strategy: country-by-country analysis
Key Policy Issue:

Tax
President Trump’s Business Tax Provisions

- 15% corporate income tax rate
- Cap the tax rate on pass-through business income at 15% (possibly limited to small pass-throughs; large entities 15% entity tax and 20% tax on dividends)
- Allow full expensing (but limit interest deductibility)
- Possibly end tax deferral on overseas corporate income
- Enact one-time deemed repatriation tax of 10% on all currently deferred foreign profits (4% tax on illiquid assets)
- Eliminate all corporate tax expenditures (except R&D credit)
- Eliminate Corporate AMT
President Trump’s Individual Tax Provisions

- Individual Tax Provisions
  - 3 tax brackets:
    - 12% (37.5K and 75K)
    - 25% ($112.5K and 225K)
    - 33% (in excess of $112.5K and 225K)
- Capital gains brackets of 0%, 15%, and 20% coinciding with income tax brackets
- Standard deduction of $15,000 for individuals and $30,000 for married individuals
- Repeal AMT and 3.8% Net Investment Tax
- Repeal estate tax (but disallow basis step-up for estates over $10M – likely taxed upon sale)
- Tax carried interest as ordinary income
- Deduct child care expenses equal to the average child care cost (income cap at $250K/$500K)
- Cap deductions for high-income individuals at $100,000, or $200,000 for married filers
House GOP Task Force on Tax Reform Blueprint

**Business Provisions**

- Reduces the corporate tax rate from 35% to 20%
- 25% rate for all pass-throughs
- Repeals corporate AMT
- Immediate and full expensing for business investments
- Eliminate current deduction for interest expense
- Net operating losses allowed to carry forward indefinitely
- Retains R&D but eliminates other “special interest deductions”
- Replaces worldwide income tax system with a destination basis cash-flow tax approach that imposes tax by location of consumption (as opposed to location of production). Sales of exported products, services and intangibles would not be subject to U.S. tax. Imported products, services and intangibles will not be deductible.
House GOP Task Force on Tax Reform Blueprint

**Individual Provisions**

- Reduce the number of tax brackets to three (12%, 25%, 33%)
- Combines the standard deduction, additional standard deduction, and the Personal Exemption into a “Larger Standard Deduction”
- Combines the Child Tax Credit (CTC) and the personal exemption for children and dependents into one “Larger Child and Dependent Tax Credit.” Increases the CTC to $1,500 per child.
- 50% deduction allowance for individuals’ net capital gains, dividends, and interest income
- Repeals the estate tax
- Repeals unspecified “special-interest provisions”
- Retains the EITC, higher education deductions, mortgage interest, and charitable contribution deductions

| INDIVIDUAL INCOME TAX BRACKETS UNDER THE BLUEPRINT |
|-------------------|------------------|
| **Current Law**    | **Blueprint**     |
| 10%                | 0% (12%)         |
| 15%                |                  |
| 25%                | 25%              |
| 28%                |                  |
| 33%                | 33%              |
| 35%                |                  |
| 39.6%              |                  |

*arnings subject to alternative minimum tax (AMT)

</tbody>
</table>
Repatriation

**Question:** What is Trump’s repatriation plan?

**Answer:** A one-off tax break that allows U.S. firms to bring funds back into the U.S. that were held overseas with only a 10% payment, versus the current 35%.

**What this means for Mid-Market investors:**
- Increased cash available in the U.S. for acquisitions by some of the largest U.S. companies in the world
- Other possibilities:
  - Financial investment: share buybacks, special dividends, other capital structure changes
  - Physical investment in operating companies
Key Policy Issue:

The Affordable Care Act
Legislative Options for Repealing the Affordable Care Act

- **Budget Reconciliation Process:**
  - President Trump and the Republicans in Congress have the ability to quickly eliminate key portions of the ACA using the budget reconciliation process (which was used to enact the ACA legislation).
  - This approach allows for the passage of federal tax and revenue measures with a procedure that is not subject to a filibuster in the Senate. The Republicans’ majority in the House and Senate would be sufficient to repeal major ACA provisions including:
    - The individual and employer mandates
    - The federal subsidies that reduce the costs of mandated coverage for lower income individuals in the ACA exchanges
    - The taxes built in to the ACA including the medical device tax, the tax on so called Cadillac health plans, and the high-income earner Medicare surtax
  - The process would leave in place non-revenue-related aspects of the ACA, including the requirement that health insurers issue coverage without regard to pre-existing conditions and the mandate that they allow children up to age 26 to be covered under their parents’ health plans.
  - Repeal could take effect immediately or be delayed to minimize disruption for the approximately 20 million people who have already obtained health coverage because of the ACA.
Potential Replacements for the Affordable Care Act Continued

Speaker Ryan’s “Better Way” Plan

The House Republicans under the direction of Speaker Paul Ryan have developed a substantial health reform proposal which repeals the ACA and replaces it with an extensive policy framework: titled A Better Way: Our Vision for a Confident America. Key provisions include:

- Pre-existing conditions and the individual mandate
- Essential health benefits and age-rating ratios (3 to 1)
- Subsidies and tax credits
- Medicaid block grants
- Capping the employer-based-insurance tax exclusion

Tom Price’s “Empowering Patients First Act”

Tom Price, Trump’s nominee for U.S. Secretary of Health and Human Services, has put forward his own plan to repeal and replace the ACA which is similar in many ways to Ryan’s Better Way Plan. Price’s plan proposes:

- Providing preexisting condition protection only if the beneficiary has maintained continuous health insurance coverage.
- Replace the ACA’s subsidies with tax credits based on age rather than income and cap the tax exclusion for employer based coverage at $8,000 for individuals and $20,000 for families
- Eliminate the essential health benefits requirements and do away with age rating ratios
- Encourage the use of health savings accounts and imposing limits on medical malpractice litigation.

The Patient Choice, Affordability, Responsibility, and Empowerment (“CARE”) Act from Senator Hatch, Senator Burr, and Rep. Upton

The CARE Act’s key provisions include:

- Preexisting conditions and the individual mandate
- Subsidies and tax credits
- Essential health benefits and age-rating ratios (5 to 1)
- Capping the employer-based-insurance tax exclusion.
- Medicaid block grants
Key Policy Issue:
Government Contracting
Future of Government Contracting

**Budgets**
- DoD, DHS, NASA, and DoT expected to increase
- CFPB, EPA, HHS expected to decrease

**Changes in enforcement**
- Audit and fraud investigation and enforcement are unlikely to change
- Preventing fraud is a bipartisan issue
- Qui tam provision of the FCA will still entice third parties
- May be more business friendly with regulatory interpretations

**Freeze on hiring of federal employees**
- Could further slow administrative processes
Timing and Key Dates
Budget resolutions may serve as vehicles for primary agenda items in 2017

Timeline of key policy events in 2017

January - March
Senate confirmation hearings on new administration appointees

March 15
Debt ceiling deal expires

April 15
President’s Budget Request

April 28
Budget Resolution FY18, likely vehicle for ACA repeal

May 19
Deadline for CRA review of rules finalized on the last day of the 114th Congress*

Possible second Budget Resolution in December, likely vehicle for comprehensive tax reform after policy debates and hearings on tax policy throughout the year

* Congressional Review Act
  - Federal agency rules finalized on or after June 13, 2016 may be subject to congressional review and resolutions of disapproval by the 115th Congress
  - Lawmakers have 60 legislative days after a final rule is published to pass a resolution of disapproval
